

Olfactory receptor 4K17 Polyclonal Antibody

Catalog No :	YT3348
Reactivity :	Human;Rat;Mouse;
Applications :	IF;ELISA
Target :	Olfactory receptor 4K17
Fields :	>>Olfactory transduction
Gene Name :	OR4K17
Protein Name :	Olfactory receptor 4K17
Human Gene Id :	390436
Human Swiss Prot No :	Q8NGC6
Immunogen :	The antiserum was produced against synthesized peptide derived from human OR4K17. AA range:263-312
Specificity :	Olfactory receptor 4K17 Polyclonal Antibody detects endogenous levels of Olfactory receptor 4K17 protein.
Formulation :	Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.
Source :	Polyclonal, Rabbit,IgG
Dilution :	IF 1:200 - 1:1000. ELISA: 1:20000. Not yet tested in other applications.
Purification :	The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.
Concentration :	1 mg/ml
Storage Stability :	-15°C to -25°C/1 year(Do not lower than -25°C)
Molecularweight :	35kD

Cell Pathway : Olfactory transduction;

Background : Olfactory receptors interact with odorant molecules in the nose, to initiate a neuronal response that triggers the perception of a smell. The olfactory receptor proteins are members of a large family of G-protein-coupled receptors (GPCR) arising from single coding-exon genes. Olfactory receptors share a 7-transmembrane domain structure with many neurotransmitter and hormone receptors and are responsible for the recognition and G protein-mediated transduction of odorant signals. The olfactory receptor gene family is the largest in the genome. The nomenclature assigned to the olfactory receptor genes and proteins for this organism is independent of other organisms. [provided by RefSeq, Jul 2008],

Function : function:Odorant receptor .,similarity:Belongs to the G-protein coupled receptor 1 family.,

Subcellular Location : Cell membrane; Multi-pass membrane protein.
