

CD54 (PN0342) Nb-FC recombinant antibody

Catalog No: YA0398

Reactivity: Human

Applications: ELISA

Target: CD54

Gene Name: ICAM1

Protein Name: Intercellular adhesion molecule 1 (ICAM-1) (Major group rhinovirus receptor)

(CD antigen CD54)

Human Gene Id: 3383

Human Swiss Prot

No:

Immunogen: Purified recombinant Human CD54

P05362

Specificity: This recombinant monoclonal antibody can detects endogenous levels of CD54

protein.

Formulation: Phosphate-buffered solution

Source: Camel, chimeric fusion of Nanobody (VHH) and mouse IgG1 Fc domain,

recombinantly produced from 293F cell

Dilution: ELISA 1:5000-100000

Purification: Recombinant Expression and Affinity purified

Concentration: Please check the information on the tube

Storage Stability: -15°C to -25°C/1 year(Avoid freeze / thaw cycles)

Background: This gene encodes a cell surface glycoprotein which is typically expressed on

endothelial cells and cells of the immune system. It binds to integrins of type CD11a / CD18, or CD11b / CD18 and is also exploited by Rhinovirus as a

receptor. [provided by RefSeq, Jul 2008]

Function:

ICAM proteins are ligands for the leukocyte adhesion protein LFA-1 (integrin alpha-L/beta-2). During leukocyte trans-endothelial migration, ICAM1 engagement promotes the assembly of endothelial apical cups through SGEF and RHOG activation. In case of rhinovirus infection acts as a cellular receptor for the virus.,online information:ICAM-1,online information:Icosahedral capsid structure,online information:Intercellular adhesion molecule entry,polymorphism:Homozygotes with ICAM1-Kalifi Met-56 seem to have an increased risk for cerebral malaria.,PTM:Monoubiquitinated, which is promoted by MARCH9 and leads to endocytosis.,similarity:Belongs to the immunoglobulin superfamily. ICAM family.,similarity:Contains 5 Ig-like C2-type (immunoglobulin-like) domains.,subunit:Homodimer (Probable). Interacts with human herpesvirus 8 MIR2 protein (Probable). Interacts with MUC1 and promotes cell aggregatio

Subcellular Location :

Membrane; Single-pass type I membrane protein.

Expression: Blood, Kidney, Liver, Melanoma, Plasma
