

## Nb7-76

|                            |   |
|----------------------------|---|
| <b>Catalog No :</b>        | MY5244  |
| <b>Reactivity :</b>        | None  |
| <b>Applications :</b>      | Standard dilution   |
| <b>Purity :</b>            | 0.9999  |
| <b>Formulation :</b>       | 1xPBS pH7.41 at 4.0 °C  |
| <b>Dilution :</b>          | 20X by dd H2O   |
| <b>Storage Stability :</b> | 2-8 °C  |
| <b>Function :</b>          | This reagent is constructed from ultra-pure raw materials and is typically used as a negative control for standards in mass spectrometry. |
